

Superintendent's Update - April 9, 2020

Good afternoon Parents and Guardians,

I would like to provide a very brief update regarding the extension of our school closure. As noted this afternoon by the Governor, the school closure period has been extended to May 20, 2020. I understand the concerns everyone has regarding this decision and whether or not we will reopen again this year, but I believe the Governor and advisors remain hopeful that we may be able to resume in-school learning prior to the end of school year.

Upon our return from school vacation on April 20th, I will be updating families regarding the way in which grading will occur for the final marking quarter. This has been raised as a concern of many students and families, and we will be providing an update regarding the ways in which student learning will be assessed throughout the closure period.

I appreciate your continued support throughout this endeavor, and I wish everyone health and happiness during our vacation week.

Sincerely,
Timothy M. Van Tassel
