- II. Suffield Middle School administration and staff presented information on a social studies textbook that the 6th and 7th grade staff who teach this content believe is the best textbook to deliver both the breadth and depth of the current material needed to teach social studies to these two classes. The courses ranged from AP Human Geography, AP Computer Science Principles, AP Capstone course and a Career Internship Program. Also, discussed was a renaming of the course titled, Academic Statistics Course, to a Probability and Statistic course.
