### **Rationale: submitted by Alyssa Cashman and Karissa Stanio**

The Giraffe Club is working with Earth and Outing Club to host an Earth Day Cleanup of the school grounds on April 26, 2019 (with a rain date of May 3). We are looking to make the school a better place by reducing the amount of trash on campus. We have noticed that there are many water bottles and food wrappers left behind and want to get the student body involved in cleaning up. This activity would also spread awareness of the amount of garbage here and the impact that it has on the community. It will prevent further littering at school, which is a big problem during sports season. Furthermore, although the Cleanup does require adjustments to the normal schedule, it fulfills the original purpose of Wildcat Time, which is to provide enriching opportunities for students who wish to take them. This activity will not only improve the appearance of Suffield High but will make our student body more environmentally conscious in the long term.
