Dear Parents, Guardians and **Sixth and Eighth Grade** Students:

The American Scholastic Achievement League offers a competitive test called the Scholastic Challenge 2019. The test covers a variety of skills in mathematics, science, language, history and geography. The contest is designed to stimulate students' interest in learning by incorporating general knowledge, logic and problem solving skills.

Each student who scores above the national average will receive a Certificate of Merit and our school's individual champion will be awarded a medal.

Although the test will be administered on February 11th (6th grade) and February 12th (8th grade) during the school day, students must decide now if they wish to participate. Students must sign and return the permission slip. Since the PTAC will be paying the registration fee, all students signing up will be expected to participate.

If you would like to participate in this challenge, complete the permission slip below and return it to the Main Office.

Sincerely,

Mrs. Christine Messmer
Seventh Grade Teacher

Scholastic Challenge 2019 Permission Slip

_____ will participate in the American Scholastic Achievement's
(Student's Name Printed)
Scholastic Challenge 2019. We realize that once registered, the student is expected to take the test.
